## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 1 and 4-6 are generic to a plurality of disclosed patentably distinct species comprising Species (I) as shown in figure 2 which direct to the arrangement of the shafts of the coarse and fine drive systems in a manner that the ends of the shafts are adjacent to each other and Species (II) as shown in figure 3 which direct to the arrangement of the shafts of the coarse and fine drive systems in a manner that the shafts are telescopically mounted one inside the other. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Note: Regarding to the claims, the Examiner is of opinion that the claims readable in Species (I) are claims 7-11 and the claim readable in Species (II) is claim 13. Claims 2-3 and 12 are not involved into the structure of the shafts thus these claims will be examined with the generic claims and the claims of the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 2872

2. A telephone call was made to Walter Ottesen on 9/3/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thong Q Nguyen whose telephone number is (571) 272-2316. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew A Dunn can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
